## Material and Resources

Credit 2.1

### Construction Waste Management—Divert 50%

1 point

*Returnable and recyclable packaging*—Passage can be ordered blanket wrapped, which reduces packaging usage. Passage packing materials include recyclable corrugated cardboard, honeycomb, and expanded polystyrene foam. The use of recyclable or returnable packaging can reduce the amount of landfill for the building project.

Credit 2.2

### Construction Waste Management—Divert 75%

1 point

*Returnable and recyclable packaging*—Passage can be ordered blanket wrapped, which reduces packaging usage. Passage packing materials include recyclable corrugated cardboard, honeycomb, and expanded polystyrene foam. The use of recyclable or returnable packaging can reduce the amount of landfill for the building project.

Credit 3.1

### Materials Reuse—Specify 5%

1 point

*Reuse*—Passage is designed for durability with a 12-year warranty and can be reused on many building projects. The modular workstations do not rely on panels, walls, or other workstations for support, which makes it easy to reconfigure Passage for reuse. LEED credits may be achieved when reusing or purchasing used materials on a project.
