Prerequisites 1-2 Credits 1-3					

Water Efficiency

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisites 1-3 Credits 1-6					

Energy and Atmosphere

Credit 1

Optimize Energy Performance

Task lighting may contribute to this credit. Herman Miller task lights use high-efficiency electronic ballasts and energy-efficient lamps that can help reduce the overall lighting power required for the building.

10 points

SS	WE	EA	MR	EQ	ID
Prerequisites 1.1-2 Credits 1-6					

Material and Resources

Credit 1.1-1.2

Construction, Demolition, and Renovation Waste Management

Ethospace may contribute to this credit through the use of recyclable packaging. Ethospace packing materials include recyclable corrugated cardboard, molded pulp, and expanded polystyrene foam. The use of recyclable or returnable packaging can reduce the amount of landfill for the building project. Bulk packs also reduce the amount of packing material required.

2 points

Credit 2.1-2.5

Optimize Use of Alternative Materials

Reuse—Ethospace is designed for durability with a comprehensive 12-year warranty and is easily reconfigured during renovation projects.
Recycled Content—Ethospace may contribute to this credit as a typical workstation contains 52% recycled content. Ethospace contains 31% post-consumer recycled content and 21% pre-consumer recycled content.
Rapidly Renewable—Bamboo veneers, which are considered rapidly renewable materials, can be specified in lieu of wood veneers through Herman Miller Options[®]. Kira fabric, made from corn, can be used on tiles.
Certified Wood—Some FSC-certified component projects and/or materials may be specified through Herman Miller Options.

5 points

Credit 3

Optimize Use of IAQ Compliant Products

Furniture is not included in the scope of this credit.

Credit 5.1-5.3

Occupant Recycling

Recyclable Packaging—Ethospace packing materials include recyclable corrugated cardboard, molded pulp, and expanded polystyrene foam. The use of recyclable or returnable packaging can reduce the amount of landfill for the building project.

3 points

Credit 6

Additional Toxic Material Source Reduction—Reduced mercury in light bulbs

1 point

Lower mercury bulbs can be ordered through Herman Miller Options.

Prerequisites 1-4 Credits 1-10.6					

Indoor Environmental Quality

Credit 6.1

Controllability of Systems—Lighting

Task lighting can contribute to this credit.

1 point

Credit 8.1

Daylight and Views—Daylight for 50% of spaces

Ethospace may contribute to this credit through the use of transparent materials and low furniture heights, allowing daylight to reach building occupants.

1 point

ETHOSPACE® SYSTEM
