

ETHOSPACE[®] SYSTEM

SS	WE	EA	MR	EQ	ID
Prerequisite 1 Credits 1–8					

Sustainable Sites

Not applicable

SS	WE	EA	MR	EQ	ID
Credits 1.1–3.2					

Water Efficiency

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisites 1–3 Credits 1–6					

Energy and Atmosphere

Credit 1.1-1.10 **Optimize Energy Performance** 10 points
 Herman Miller task lights use high-efficiency electronic ballasts and energy-efficient lamps that can help reduce the overall lighting power required for the project.

SS	WE	EA	MR	EQ	ID
Prerequisite 1 Credits 1.1–7					

Material and Resources

Credit 2.1 **Construction Waste Management—Divert 50% Returnable and Recyclable Packaging**—Ethospace packing materials include recyclable corrugated cardboard, molded pulp, and expanded polystyrene foam. The use of recyclable or returnable packaging can reduce the amount of landfill for the building project. 1 point

Credit 2.2 **Construction Waste Management—Divert 75% Returnable and Recyclable Packaging**—Ethospace packing materials include recyclable corrugated cardboard, molded pulp, and expanded polystyrene foam. The use of recyclable or returnable packaging can reduce the amount of landfill for the building project. 1 point

Credit 3.1 **Materials Reuse—Specify 5% Reuse**—Ethospace is designed for durability with a 12-year warranty and can be reused on many building projects. The frame and tile construction also makes it easy to reconfigure Ethospace for reuse. LEED credits may be achieved when reusing or purchasing used materials on a project. 1 point

Credit 3.2 **Materials Reuse—Specify 10% Reuse**—Ethospace is designed for durability with a 12-year warranty and can be reused on many building projects. The frame and tile construction also makes it easy to reconfigure Ethospace for reuse. LEED credits may be achieved when reusing or purchasing used materials on a project. 1 point

Credit 4.1 **Recycled Content—Specify 10% (post-consumer + 1/2 pre-consumer recycled)**
 Ethospace system may contribute to this credit as a typical workstation contains 52% recycled content. Ethospace contains 31% post-consumer recycled content and 21% pre-consumer recycled content. 1 point

Credit 4.2 **Recycled Content—Specify 20% (post-consumer + 1/2 pre-consumer recycled)**
 Ethospace system may contribute to this credit as a typical workstation contains 52% recycled content. Ethospace contains 31% post-consumer recycled content and 21% pre-consumer recycled content. 1 point

Credit 6 **Rapidly Renewable Materials—Specify 2.5%**
 Bamboo veneers, which are considered rapidly renewable materials, can be specified in lieu of wood veneers through Herman Miller Options[®]. Kira fabric, made from corn, can be used on tiles. 1 point

ETHOSPACE® SYSTEM

SS	WE	EA	MR	EQ	ID
Prerequisite 1 Credits 1.1–7					

Material and Resources continued

Credit 7	Certified Wood —Specify 50% of wood products to be FSC-certified Ethospace work surfaces can be specified with FSC-certified veneers through Herman Miller Options.	1 point
Note	The inclusion of furniture is optional for LEED NC. If furniture is included in the calculations, it must be included in all calculations for Materials and Resources Credits 3–7.	1 point

SS	WE	EA	MR	EQ	ID
Prerequisites 1–2 Credits 1–8.2					

Indoor Environmental Quality

Credit 6.1	Controllability of Systems —Lighting Task lighting can contribute to this credit.	1 point
Credit 8.1	Daylight and Views —Daylight for 75% of spaces Furniture is not included in the scope of this credit.	
Credit 8.2	Daylight and Views —Views for 90% of spaces Ethospace may contribute to this credit through the use of transparent materials and low furniture heights, allowing outdoor views to reach building occupants.	1 point
Note	The inclusion of furniture is optional for LEED NC.	

SS	WE	EA	MR	EQ	ID
Credits 1.1–2					

Innovation and Design Process

Credit 1.1-1.4	Innovation in Design LEED Innovation Credits can be achieved when a project exceeds the criteria by twice the base requirements of the credit or, in the case of multi-tiered credits, the next tier. Specifying systems furniture and seating that meets the requirement of LEED-CI EQ Credit 4.5 Low-Emitting Materials, Systems Furniture and Seating, may earn an innovation credit. Ethospace meets the requirements of both Option A (GREENGUARD® Certified) and Option C (BIFMA X7.1 – 2005, CIR dated 9/20/2006). Product restrictions: no veneer panel surfaces GREENGUARD certificates are downloadable from www.greenguard.org	4 points
