Prerequisite 1.1-2 Credits 1-6					

Material and Resources

- | | | |
|----------------|--|----------|
| Credit 1.1-1.2 | Construction, Demolition, and Renovation Waste Management
Co/Struc may contribute to this credit through the use of recyclable packaging. Co/Struc packing materials include corrugated cardboard, molded pulp, and expanded polystyrene foam. These materials are recyclable in many markets, which can reduce landfill disposal. Bulk packs also reduce the amount of packing material required. | 2 points |
| Credit 2.1-2.5 | Optimize Use of Alternative Materials
<i>Reuse</i> —Co/Struc is designed for durability with a 10-year warranty and can be reused on many building projects. The modular based construction also makes it easy to reconfigure Co/Struc for reuse.
<i>Recycled Content</i> —Co/Struc may contribute to this credit as a typical workstation contains 26% recycled content. Co/Struc contains 13% post-consumer recycled content and 13% pre-consumer recycled content.
<i>Rapidly Renewable</i> —Bamboo veneers, which are considered rapidly renewable materials, can be specified, in lieu of wood veneers through Herman Miller Options®. Kira fabric, made from corn, can be used on tiles.
<i>Certified Wood</i> —Co/Struc work surfaces can be specified with FSC-certified veneers through Herman Miller Options. | 5 points |
| Credit 3 | Optimize Use of IAQ Compliant Products
Furniture is not included in the scope of this credit. | |
| Credit 5.1-5.3 | Occupant Recycling
<i>Recyclable Packaging</i> —Co/Struc packing materials include corrugated cardboard, molded pulp, and expanded polystyrene foam. These materials are recyclable in many markets, which can reduce landfill disposal. | 3 points |
| Credit 6 | Additional Toxic Material Source Reduction —Reduced mercury in light bulbs
Lower mercury bulbs can be ordered through Herman Miller Options. | 1 point |

Prerequisite 1-4 Credits 1-10.6					

Indoor Environmental Quality

- | | | |
|------------|--|---------|
| Credit 8.1 | Daylight and Views —Daylight for 50% of spaces
Co/Struc may contribute to this credit through the use of transparent materials and low furniture heights, allowing daylight to reach building occupants. | 1 point |
| Credit 8.2 | Daylight and Views —Daylight for 75% of spaces
Co/Struc may contribute to this credit through the use of transparent materials and low furniture heights, allowing daylight to reach building occupants. | 1 point |
| Credit 8.3 | Daylight and Views —Views for 45% of spaces
Co/Struc may contribute to this credit through the use of transparent materials and low furniture heights, allowing outdoor views to reach building occupants. | 1 point |

SS	WE	EA	MR	EQ	ID
Prerequisite 1–4 Credits 1–10.6					

Indoor Environmental Quality continued

Credit 8.4 **Daylight and Views**—Views for 90% of spaces
 Co/Struc may contribute to this credit through the use of transparent materials and low furniture heights, allowing outdoor views to reach building occupants. 1 point

SS	WE	EA	MR	EQ	ID
Credits 1.1–2					

Innovation in Operation, Upgrades, and Maintenance

Credit 1.1–1.4 **Innovation in Operation and Upgrades** 4 points
 Specifying systems furniture and seating that meets the requirement of LEED-CI EQ Credit 4.5 Low-Emitting Materials, Systems Furniture and Seating, may earn an innovation credit.
 Co/Struc meets the requirements of both Option A (GREENGUARD® Certified) and Option C (BIFMA X7.1 – 2005, CIR dated 9/20/2006).
 Product Restrictions: no wood finish options
 GREENGUARD certificates are downloadable from www.greenguard.org
