

PASSAGE® DESKING SYSTEM

SS	WE	EA	MR	EQ	ID
Prerequisite 1 Credits 1-8					

Sustainable Sites

Not applicable

SS	WE	EA	MR	EQ	ID
Credits 1.1-3.2					

Water Efficiency

Not applicable

SS	WE	EA	MR	EQ	ID
Prerequisite 1-3 Credits 1-6					

Energy and Atmosphere

Credit 1.1-1.10 **Optimize Energy Performance**

10 Points

Herman Miller task lights use high-efficiency electronic ballasts and energy-efficient lamps that can help reduce the overall lighting power required for the project.

SS	WE	EA	MR	EQ	ID
Prerequisite 1 Credits 1.1-7					

Material and Resources

Credit 2.1

Construction Waste Management—Divert 50%

1 point

Returnable and recyclable packaging—Passage can be ordered blanket wrapped, which reduces packaging usage. Passage packing materials include corrugated cardboard, honeycomb, and expanded polystyrene foam. These materials are recyclable in many markets, which can reduce landfill disposal.

Credit 2.2

Construction Waste Management—Divert 75%

1 point

Returnable and recyclable packaging—Passage can be ordered blanket wrapped, which reduces packaging usage. Passage packing materials include corrugated cardboard, honeycomb, and expanded polystyrene foam. These materials are recyclable in many markets, which can reduce landfill disposal.

Credit 3.1

Materials Reuse—Specify 5%

1 point

Reuse—Passage is designed for durability with a 12-year warranty and can be reused on many building projects. The modular workstations do not rely on panels, walls, or other workstations for support, which makes it easy to reconfigure Passage for reuse. LEED credits may be achieved when reusing or purchasing used materials on a project.

Credit 3.2

Materials Reuse—Specify 10%

1 point

Reuse—Passage is designed for durability with a 12-year warranty and can be reused on many building projects. The modular workstations do not rely on panels, walls, or other workstations for support, which makes it easy to reconfigure Passage for reuse. LEED credits may be achieved when reusing or purchasing used materials on a project.

Credit 4.1

Recycled Content—Specify 10% (post-consumer + 1/2 pre-consumer recycled)

1 point

Passage may contribute to this credit as a typical workstation contains 40% recycled content. Passage contains 15% post-consumer recycled content and 25% pre-consumer recycled content.

Credit 4.2

Recycled Content—Specify 20% (post-consumer + 1/2 pre-consumer recycled)

1 point

Passage may contribute to this credit as a typical workstation contains 40% recycled content. Passage contains 15% post-consumer recycled content and 25% pre-consumer recycled content.

Credit 6

Rapidly Renewable Materials—Specify 2.5%

1 point

Bamboo veneers, which are considered rapidly renewable materials, can be specified in lieu of wood veneers through Herman Miller Options®. Kira fabric, made from corn, can be used on screens.

PASSAGE® DESKING SYSTEM

SS	WE	EA	MR	EQ	ID
Prerequisite 1 Credits 1.1–7					

Material and Resources continued

- Credit 7 **Certified Wood**—Specify 50% of wood products to be FSC-certified
 Passage work surfaces can be specified with FSC-certified veneers through Herman Miller Options. 1 point
- Note The inclusion of furniture is optional for LEED NC. If furniture is included in the calculations, it must be included in all calculations for Materials and Resources Credits 3–7.

SS	WE	EA	MR	EQ	ID
Prerequisite 1–2 Credits 1–8.2					

Indoor Environmental Quality

- Credit 6.1 **Controllability of Systems**—Lighting 1 point
 Task lighting can contribute to this credit.
- Credit 8.1 **Daylight and Views**—Daylight for 75% of spaces 1 point
 Passage may contribute to this credit through the use of transparent materials and low furniture heights, allowing daylight to reach building occupants.
- Credit 8.2 **Daylight and Views**—Views for 90% of spaces 1 point
 Passage may contribute to this credit through the use of transparent materials and low furniture heights, allowing outdoor views to reach building occupants.
- Note The inclusion of furniture is optional for LEED NC.

SS	WE	EA	MR	EQ	ID
Credits 1.1–2					

Innovation and Design Process

- Credit 1.1-1.4 **Innovation in Design** 4 points
 LEED Innovation Credits can be achieved when a project exceeds the criteria by twice the base requirements of the credit or, in the case of multi-tiered credits, the next tier.
 Specifying systems furniture and seating that meets the requirement of LEED-CI EQ Credit 4.5 Low-Emitting Materials, Systems Furniture and Seating, may earn an innovation credit.
 Passage meets the requirements of both Option A (GREENGUARD® Certified) and Option C (BIFMA X7.1 – 2005, CIR dated 9/20/2006).
 Product restrictions: no wood finish options
 GREENGUARD certificates are downloadable from www.greenguard.org
