# Aeron® Chairs

When Aeron debuted in 1994 it was a chair unlike any the world had ever seen. It didn’t just change how people sat, but what they thought a chair could be. But a lot has changed since then, so it made sense that Aeron should change too.

So how did we improve one of the most iconic and beloved chairs in the world? We recruited co-designer Don Chadwick to reexamine the design criteria that led him and Bill Stumpf to Aeron in the context of today’s work and technology. With stronger, smarter materials, better adjustment capabilities, new finish options, and a healthier, more comfortable sit, we didn’t recreate or redesign the Aeron Chair—we remastered it.
