

Performance Textiles

At Herman Miller, we're committed to designing a better world. Our performance textiles solve the problems our customers face in workspace and clinical environments: cleanability, bacterial resistance, moisture resistance, and breathability.

Our growing collection of performance textiles conform with ISO 9001 (Quality Management System). Each have their own performance attributes that offer various benefits for healthcare environments, cafeterias, collaborative spaces, and other high traffic areas.

Materials

BRAND	TEXTILE	CONSTRUCTION	CONTENT	FINISH	BACKING	PRODUCT APPLICATIONS	STAIN REPEL AND RELEASE	MOISTURE BARRIER	BLEACH CLEANABLE
PRICE BAND 1

Ultrafabrics	Brisa Mokume	Coated	100% Polyurethane		65% Polyester, 35% Rayon backing	Task Seating	Yes	Yes	Yes

Textile Characteristics

Stain Repel and Release

A coating or other treatment applied to a fabric for improved soil and stain resistance. Stain repel and release finishes help to prevent liquids from penetrating the textile and enhance cleanability.

This includes textiles with BLOCKaide, Crypton, Crypton Green, Protective Topcoat, Resilience finishes, and textiles identified as PFOA-Free Stain Resistant.

Ink and Stain Resistant, Ink Resistant Protective Top Coat, and Writer's Block also provide stain repel and release.

Moisture Barrier

A moisture barrier is a finish applied as a film or coating to the back of a textile that does not allow a liquid to pass through.

Moisture barriers prevent penetration of liquids, enhance cleanability, and prolong furniture life.

Polyurethane, Vinyl, and Silicone textiles have a coating or backing providing a moisture barrier.

Bleach Cleanable

A bleach cleanable textile does not fade or weaken when cleaned with a solution of one part household bleach to ten parts water.

Warranty Information

Herman Miller Proprietary Performance Textiles, 12 Years

Products sold under the Herman Miller brand, including Herman Miller products and Geiger products, are backed by our 12-year, 3-shift warranty.

Geiger Textiles, 5 Years

Geiger Textiles guarantees these products will perform in accordance with accepted industry standards when used under normal conditions, during single shift operation, with proper maintenance and for the purpose intended.

Maharam Textiles, 5 Years

Maharam guarantees that its products will perform in accordance with accepted industry standards when used under normal conditions, during single shift operation, with proper maintenance and for the purpose intended.

Open Line Textiles Manufacturer Warranty

Refer to identified brand for warranty information.

Camira Textiles, 10 Years

Camira guarantees that its products will perform in accordance with accepted industry standards when used under normal conditions, during single shift operation, with proper maintenance and for the purpose intended.

Gabriel Textiles, 10 Years

Gabriel guarantees that its products will perform in accordance with accepted industry standards when used under normal conditions, during single shift operation, with proper maintenance and for the purpose intended.

Kvadrat, 10 Years

Kvadrat guarantees that its products will perform in accordance with accepted industry standards when used under normal conditions, during single shift operation, with proper maintenance and for the purpose intended.

Ultrafabrics, 2 Years

Ultrafabrics guarantees that its products will perform in accordance with accepted industry standards when used under normal conditions, during single shift operation, with proper maintenance and for the purpose intended.
