**Viv**
Chair / Lounge / Barstool

**About Viv**
As a simple and comfortable staple of the naughtone portfolio, the Viv chair’s slender shape is highlighted by its tight and skilful upholstery, making it a welcome addition to the home, meeting room or break out space.

Viv stacks neatly on the ground and on a designated stacking trolley.

**Compliance**
- SCS Indoor Advantage™ Gold Certificate
- naughtone is FSC® certified
- naughtone is FISP and ISO14001 certified
- Our chairs are designed to meet or exceed all EN performance requirements per BS EN 16139:2013
- Health Product Declaration (HPD) reports available

**Base Options**
- White / Black Powder Coated Base
- Chrome Mild Steel Base

**Resources**
- 3D visualisation models, 2D DWG and Revit files are available for all naughtone products
- Download the files from our website www.naughtone.com

**Sizes**
All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch

**Stacking Trolley**
Available for Chairs Only

Testing
Our chairs are designed to meet or exceed all EN performance requirements per EN16139:2013, which includes the following tests:

- Seat and back static load test
- Seat front edge static load test
- Vertical static load on back
- Foot rest and leg rest static load test
- Arm sideways static load test
- Arm downwards static load test
- Vertical upwards static load on arm rests
- Seat and back durability test
- Seat front edge durability test
- Leg forward static load test
- Leg sideways static load test
- Seat impact test
- Back impact test
- Arm impact test

Flammability
The cold cure foam material has been tested to meet the following standards:

- British standard 5852:2006 Part 2
- California Technical Bulletin 117-2013
- Italian standards UNI 9175-CLASS 1.IM

The flammability standard of the covering fabric is dependent on the choice made by the customer, details of the flammability rating of specific fabrics can be found on supplier’s websites listed below.

Environment attributes

- naughtone is FISP and ISO14001 certified
- 8.5kg total weight
- 55.9% Recyclable (base, foam, feet, fixings)
- 39.5% Reusable (plywood frame and base)
- 31% Recycled Content (base, chip foam, fixings)
- Indoor Advantage™ Gold ANSI/BIFMA Furniture Emissions Standard (M7.1/X7.1-2011 R2016) and ANSI/BIFMA e-3-2014e (Credits 7.6.1, 7.6.2, 7.6.3)
- Health Product Declarations (HPD) reports available

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL building certifications.

CSR Statement

naughtone has always considered the environment throughout our design and manufacturing process. We understand that as we continue to grow, so does our potential impact on our surroundings. As most of our raw materials are simple, we have great control over their sources, and are proud to be able to offer FSC® certified upholstered products and use recycled metals in our table ranges. The addition of our North American manufacturing provision also helps to keep manufacturing miles to a minimum, as our market continues to grow in the USA. Finally, naughtone offers a ‘bring back’ programme, where the client is able to return the product to our factory, where we will be happy to breakdown and recycle the parts for you.

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to naughtone. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in the Environmental product summary may vary based on model and options selected; we have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages, material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.

Viv Chair Environmental Product Summary

Material Percentage Split

- 58.55% Mild Steel
- 39.49% Beech Plywood
- 4.79% CMHR Foam
- 4.64% Fabric
- 95.4% Recyclable
- 39.5% Reusable

Post Consumer Recycled Content

- 31% Recyclable

Recyclable Content

- 55.9% Recyclable
- 39.5% Reusable

Product Specific Design Statement

The Viv chair is available in a variety of different sizes, but for this document we have used:

Viv Chair on a sled base

The Viv chair inner shell is constructed from a 3D formed plywood, providing a comfortable bucketed seat. This is then covered with CMHR foams and then fully upholstered with fabric. The Viv chair base is machine bent from mild steel rod which is then weld jointed together and polished by hand to a smooth surface. The steel rod is finished with either chrome plating or polyester powder coat.

The Viv seat and frame are assembled together by hand using minimal fixings and can be easily disassembled if necessary.
Environment attributes

- naughtone is FISP and ISO14001 certified
- naughtone is FSC® certified
- 12.5kg total weight
- 92.1% Recyclable (base, foam, feet, shell, arms, fixings)
- 33.8% Recycled Content (base, arms, fixings)
- Indoor Advantage™ Gold ANSI/BIFMA Furniture Emissions Standard (M7.1/X7.1-2011 R2016) and ANSI/BIFMA e-3-2014e (Credits 7.6.1, 7.6.2, 7.6.3)

Product Specific Design Statement

The Viv chair is available in a variety of different sizes, but for this document we have used: Viv Armchair on 5 Star Base with Gas Lift

The Viv chair inner shell is constructed from a 3D formed plywood, providing a comfortable bucketed seat. This is then covered with CMHR foams and then fully upholstered with fabric.

The Viv 5 star base and top plate are made from cast aluminium and are available in either a polished or polyester powder coated finish. The pressure fit castors are removable for ease of recycling.

The Viv seat and frame are assembled together by hand using minimal fixings and can be easily disassembled if necessary.

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to naughtone. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in the Environmental product summary may vary based on model and options selected, we have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages, material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.
Every aspect of the naughtone product ranges has been designed with the environment considered, from ethical material choice and production efficacy to storage efficiency and ease of disassembly. Dense foam sets and resilient fabrics are selected for their longevity and effectiveness across sectors. Durable high quality finishes such as powder coated bases in a range of colours allow clients the freedom of finish options. Finish samples are available allowing clients to make informed decisions and retain to add to their finish libraries for future reference.

Local supply of raw materials is employed for the production of our products when possible, procured from suppliers that are quality inspected for extraction methods and meet the highest environmental standards.

As many of our products are assembled by hand the energy expenditure wasted from machinery during the production process is kept to a minimum. All fabrics are cut to ensure optimum efficiency with fabric usage and reduced waste consumption per unit. All production sites have recycling facilities for any excess product that cannot be used elsewhere, which is then managed by a professional third party.

Distribution of naughtone products generally occurs directly between the manufacturing site to the client. Production is localised when possible to the US or UK regions, reducing the carbon footprint and miles travelled for each product. Many items are flat packed for delivery or shipped disassembled with efficient, minimised packaging; optimizing the transportation vessel space.

Although our products are durable and demonstrate timeless design, naughtone products are manufactured in such a way that they can be easily disassembled at the end of life and most of the componentry can be either recycled or re-used as applicable. As a company we are also happy to accept the return of products, to help re-home or recycle furniture or components at the end of the products useful life.
