

Multi-screen Solutions

THE WISHBONE FAMILY

Wishbone

colebrook bosson saunders

The Wishbone family meets all multi-screen requirements. An iconic design since 1999, Wishbone has won numerous product design and innovation awards the world over.

Wishbone was the product that broke the mould, the original flat screen monitor arm. Since setting this new standard back in 1999, the Wishbone range has gone from strength to strength, evolving, innovating, and adapting to the rapidly changing workplace and the challenges presented by the requirement to display large volumes of information on multiple screens.

The reliability and adaptability of Wishbone has made it a favourite among trading floors, financial institutions, control rooms and multi-media environments.

The modular nature of the range ensures that users are easily able to configure, add to, and customise Wishbone arms to suit their unique working environment.

Adjustable and easy to install, it is no surprise that Wishbone continues to be one of the best-selling monitor arms in the world.

EASY PORTRAIT TO LANDSCAPE SCREEN ORIENTATION

With minimal effort and no affect on stability, the screen can be rotated from portrait to landscape and vice versa.

QUICK RELEASE AND +/-50° TILT AS STANDARD

Ensure unrivalled screen stability in either portrait or landscape configuration, preventing unwanted 'bounce' and screen movement. Enjoy a 50° tilt both up and down and a 90° rotation to the left and right.

INTEGRATED CABLE MANAGEMENT SYSTEM

Creates a neat and tidy workstation.

THREE LENGTHS AVAILABLE

Ensure unrivalled screen stability in either portrait or landscape configuration, preventing unwanted 'bounce' and screen movement. Enjoy a 50° tilt both up and down and a 90° rotation to the left and right.

Colebrook Bosson Saunders (CBS) are award-winning designers and manufacturers of high quality ergonomic products for supporting technology in the workplace.

Our product range includes: monitor arms; CPU holders; laptop and tablet supports; AV/VC stands and cable management systems.

With a strong reputation for design and quality, CBS has won multiple awards including two Red Dot Design Awards, and secured ISO 9001 and ISO 14001 accreditation.

Meet the Wishbone family.

Wishbone

Available in three lengths, Wishbone provides a flexible range of options. It can be installed at a range of heights and configurations to create the ideal set-up according to specification.

Wishbone Plus

Can support monitors up to a weight range of 24kg ensuring it can comfortably hold the heaviest displays on the commercial market.

Wishbone Dual Mount Bracket

For a flexible dual screen solution that enables the user to adjust the workstation according to work dependency and application type.

One display can be moved into a more prominent position for primary dependency with the other screen supporting, or both screens can display information equally.

Wishbone Dual Bar

Perfect for holding two screens of equal size and dependency in position.
