A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective October 6, 2025, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Headway™ Rectangle Shape, Y-Base, DP1AYS Seated Height Table DP1AYT

Product Information

Description

This Y-base rectangle seated-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge, laminate top with universal edge, or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate tops 60" to 108" wide have 1-piece construction and are supported by 2 end legs.

Laminate tops 120" to 192" wide have 2-piece construction and are supported by 2 end legs and 1 intermediate leg.

Laminate tops 204" to 240" wide have 3-piece construction and are supported by 2 end legs and 2 intermediate legs.

Veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

Veneer tops 108" to 192" wide have 2-piece construction and are supported by 2 end legs and 1 intermediate leg.

Veneer tops 204" to 240" wide have 3-piece construction and are supported by 2 end legs and 2 intermediate legs.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

When specifying cutouts (A, B) in tables 108" wide to 192" wide, cutouts can be located on the left (L), the right (R), or the left and right side(s) of the table. No center cutouts available.

When specifying cutouts (A, B, C) in tables 204" wide to 240" wide, cutouts can be located on the left (L), the right (R), or the center (C) of the table, or any combination of the three.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program. See planning guide for additional information.

Headway™ Rectangle Shape, Y-Base, DP2AYS Standing Height Table DP2AYT

Product Information

Description

This Y-base rectangle standing-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge, laminate top with universal edge, or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate and veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

No center cutouts available.</p> <p>When specifying cutouts (A, B, C) in tables 204" wide to 240" wide, cutouts can be located on the left (L), the right (R), or the center (C) of the table, or any combination of the three. For 54"- and 60"-deep tables, cutouts can also be located over the left or right cabinet bases (S, T).</p> <p>Laminate and veneer tops are 1¼" thick.</p> <p>Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.</p> <p>When specifying technology mounting panels in bases (P), 2 technology panels are included.</p> <p>When specifying metal painted curtain (C) or trough (T) undersurface wire management option, finish will match inner cabinet base paint finish.</p> <p>To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.</p> <p>These units are also compatible with hammock (H) or metal painted curtain with fabric sling (C).</p>

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) or metal painted curtain with fabric sling (C) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

DP1BYT

Product Information

Description

This Y-base boat-shaped seated-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate tops 60" to 108" wide have 1-piece construction and are supported by 2 end legs.

Laminate tops 120" to 192" wide have 2-piece construction and are supported by 2 end legs and 1 intermediate leg.

Laminate tops 204" to 240" wide have 3-piece construction and are supported by 2 end legs and 2 intermediate legs.

Veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

Veneer tops 108" to 192" wide have 2-piece construction and are supported by 2 end legs and 1 intermediate leg.

Veneer tops 204" to 240" wide have 3-piece construction and are supported by 2 end legs and 2 intermediate legs.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

When specifying cutouts (A, B) in tables 108" wide to 192" wide, cutouts can be located on the left (L), the right (R), or the left and right side(s) of the table. No center cutouts available.

When specifying cutouts (A, B, C) in tables 204" wide to 240" wide, cutouts can be located on the left (L), the right (R), or the center (C) of the table, or any combination of the three.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Boat Shape, Y-Base,
Standing Height Table

DP2BYS
DP2BYT

Product Information

Description

This Y-base boat-shaped standing-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate and veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Tapered Shape, Cabinet-Base, Seated Height Table

DP1CCS
DP1CCT

Product Information

Description

This cabinet base tapered top seated-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate and veneer tops 96" wide have 1-piece construction and are supported by 2 end cabinet bases.

Laminate and veneer tops 114" wide have 2-piece construction and are supported by 2 end cabinet bases and 1 intermediate cabinet base.

When specifying 1 cutout (A) in tables 96" wide, cutout will be located in the center.

When specifying cutouts (A, B) in tables 114" wide, cutouts can be located on the left (L), the right (R), or the left and right side(s) of the table. No center cutouts available.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying technology mounting panels in bases (P), 2 technology panels are included.

When specifying metal painted curtain (C) or trough (T) undersurface wire management option, finish will match inner cabinet base paint finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H) or metal painted curtain with fabric sling (C).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) or metal painted curtain with fabric sling (C) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Tapered Shape, Y-Base, Seated Height Table DP1CYS DP1CYT

Product Information

Description

This Y-base tapered-top seated-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate and veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Tapered Shape, Y-Base, Standing Height Table

DP2CYS
DP2CYT

Product Information

Description

This Y-base tapered-top standing-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate and veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Oval Shape, Cabinet-Base, Seated Height Table

DP1DCS
DP1DCT

Product Information

Description

This cabinet base oval seated-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate and veneer tops 96" wide have 1-piece construction and are supported by 2 end cabinet bases.

Laminate and veneer tops 120" to 144" wide have 2-piece construction and are supported by 2 end cabinet bases and 1 intermediate cabinet base.

When specifying 1 cutout (A) in tables 96" wide, cutout will be located in the center.

When specifying cutouts (A, B) in tables 120" wide to 144" wide, cutouts can be located on the left (L), the right (R), or the left and right side(s) of the table. For 60"-deep tables, cutouts can also be located over the left or right cabinet bases (S, T). No center cutouts available.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying technology mounting panels in bases (P), 2 technology panels are included.

When specifying metal painted curtain (C) or trough (T) undersurface wire management option, finish will match inner cabinet base paint finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H) or metal painted curtain with fabric sling (C).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) or metal painted curtain with fabric sling (C) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Oval Shape, Y-Base, Seated Height Table

DP1DYS
DP1DYT

Product Information

Description

This Y-base oval seated-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.

Notes

Laminate tops 60" to 108" wide have 1-piece construction and are supported by 2 end legs.

Laminate tops 120" to 144" wide have 2-piece construction and are supported by 2 end legs and 1 intermediate leg.

Veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.

Veneer tops 108" to 144" wide have 2-piece construction and are supported by 2 end legs and 1 intermediate leg.

When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.

When specifying cutouts (A, B) in tables 108" wide to 144" wide, cutouts can be located on the left (L), the right (R), or the left and right side(s) of the table. No center cutouts available.

Laminate and veneer tops are 1¼" thick.

Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.

When specifying trough (T) undersurface wire management option, finish will match base finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.

These units are also compatible with hammock (H).

When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.

Order the following compatible power components separately:

- Tech bucket (DP5B.)
- Logic G1000 grommet mounted electrical distributor (Y1425.)

Third-party technology units must be ordered separately from an outside supplier.

For additional widths and finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Oval Shape, Y-Base,
Standing Height Table

DP2DYS
DP2DYT

Product Information
<p>Description</p> <p>This Y-base oval standing-height table comes in a squared- or thin-edge style and offers a laminate top with thermoplastic edge or veneer top with veneer edge. Table may be specified with cutouts to accommodate Herman Miller power options or third-party technology units, both ordered separately. Table also offers multiple understructure cable management options. Table comes with 1½" leveling glides. Shipped knocked down.</p>
<p>Notes</p> <p>Laminate and veneer tops 60" to 96" wide have 1-piece construction and are supported by 2 end legs.</p> <p>When specifying 1 cutout (A) in tables 60" wide to 96" wide, cutout will be located in the center.</p> <p>Laminate and veneer tops are 1¼" thick.</p> <p>Integrated technology cutouts are sized for Logic G1000 grommet mounted power access solutions, Headway™ technology bucket (DP5B.), and third-party technology units. See planning guide for specific units that fit in the table.</p> <p>When specifying trough (T) undersurface wire management option, finish will match base finish.</p> <p>To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), trough (T) for undersurface wire management is recommended.</p> <p>These units are also compatible with hammock (H).</p> <p>When specifying a cutout for a third-party cable retractor, we recommend the hammock (H) for undersurface wire management. See planning guide for specific size guidelines and wire management dimensions.</p> <p>Order the following compatible power components separately:</p> <ul style="list-style-type: none"> • Tech bucket (DP5B.) • Logic G1000 grommet mounted electrical distributor (Y1425.) <p>Third-party technology units must be ordered separately from an outside supplier.</p> <p>For additional widths and finish options, see Vary Easy program.</p> <p>See planning guide for additional information.</p>

Headway™ Communal Table, Seated DP1EFS Height

Product Information

Description

This seated height communal table comes in a squared edge style and offers a laminate top with thermoplastic edge, laminate top with universal edge, or veneer top with veneer edge. Table may be specified with cutouts to accommodate Logic Mini™ power options. Tables comes with 1½" leveling glides. Shipped knocked down.

Notes

Communal seated table height is 28½" from floor to top of surface.

All laminate and veneer tops will have 1-piece construction.

When specifying cutouts for 60", 72", or 84"-wide tables, options are for no cutout (NN), or for cutouts located on left and right (C3).

When specifying cutouts for 96", 108", or 120"-wide tables, options are for no cutout (NN), for cutouts located on left and right (C3), or for cutouts on left, right, and center (C5).

Order the following compatible power components separately:

- Logic mini vine for Headway™ communal table (DP1416.)

For additional finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Communal Table, Counter DP1EGS Height

Product Information

Description

This counter height communal table comes in a squared edge style and offers a laminate top with thermoplastic edge, laminate top with universal edge, or veneer top with veneer edge. Table may be specified with cutouts to accommodate Logic Mini™ power options. Tables comes with 1½" leveling glides. Shipped knocked down.

Notes

Communal counter table height is 36" from floor to top of surface.

All laminate and veneer tops will have 1-piece construction.

When specifying cutouts for 60", 72", or 84"-wide tables, options are for no cutout (NN), or for cutouts located on left and right (C3).

When specifying cutouts for 96", 108", or 120"-wide tables, options are for no cutout (NN), for cutouts located on left and right (C3), or for cutouts on left, right, and center (C5).

Order the following compatible power components separately:

- Logic mini vine for Headway™ communal table (DP1416.)

For additional finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Communal Table, Standing Height

DP1EPS

Product Information

Description

This standing height communal table comes in a squared edge style and offers a laminate top with thermoplastic edge, laminate top with universal edge, or veneer top with veneer edge. Table may be specified with cutouts to accommodate Logic Mini™ power options. Tables comes with 1½" leveling glides. Shipped knocked down.

Notes

Communal standing table height is 42" from floor to top of surface.

All laminate and veneer tops will have 1-piece construction.

When specifying cutouts for 60", 72", or 84"-wide tables, options are for no cutout (NN), or for cutouts located on left and right (C3).

When specifying cutouts for 96", 108", or 120"-wide tables, options are for no cutout (NN), for cutouts located on left and right (C3), or for cutouts on left, right, and center (C5).

Order the following compatible power components separately:

- Logic mini vine for Headway™ communal table (DP1416.)

For additional finish options, see Vary Easy program.

See planning guide for additional information.

Headway™ Cabinet Base, Seated Height

DP3C.

Product Information

Description

This independent 2-cabinet base kit allows for customized surfaces from suppliers other than HermanMiller. Cabinet base comes in multiple depths and widths. The removable cabinet doors come in laminate or veneer. Base accommodates multiple understructure cable management options. Base kit comes with 1½" leveling glides. Surface attachment hardware included. Shipped knocked down.

Notes

Cabinet bases are 22" deep.

When specifying technology mounting panels in bases (P), 2 technology panels are included.

When specifying metal painted curtain (C) or trough (T) undersurface wire management option, finish will match inner cabinet base paint finish.

To use the Headway™ tech bucket (DP5B.) or any of the Logic G1000 units (Y1425.), specify trough (T) for undersurface wire management.

When specifying a cabinet base only for a customized top, see planning guide for top restrictions and guidelines.

The included surface attachment hardware is used for a wood top or wood sub-top. See planning guide for attachment information for nonwood tops.

See planning guide for additional information.

Headway™ Y-Base, Standing Height DP4Y.

Product Information

Description

This independent standing-height Y-base supports surfaces to create a complete table. Base accommodates multiple understructure cable management options. Base comes with 1½" leveling glides. Surface attachment hardware included. Shipped knocked down.

Notes

All standing-height Y-bases have 2 legs.

When specifying trough (T) undersurface wire management option, finish will match base finish.

For base load limits, nonstandard surface dimensions, cutout locations, and other planning information, see planning guide.

Base supports surfaces 60" to 96" wide, and 36", 42", and 48" deep.

This base-only product cannot be used with a stone top larger than 42"D×78"W.

The included surface attachment hardware is used for a wood top or wood sub-top. See planning guide for attachment information for nonwood tops.

Logic Mini Vine for Headway™ DP1416 Communal Table

Product Information

Description
This electrical distributor plugs directly into floor, wall, or ceiling-drop outlets to provide AC and USB power to Headway™ communal tables. Each module configuration presents the same visual appearance. Cable clips and attachment hardware included. Product is ETL listed to UL962A.

Notes

Cord length is 18' from plug end to junction box.
Junction box is 3' from end of table.
USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C port provides 15 watts of power and USB-A port provides 10 watts of power individually. If using both USB-C and USB-A ports, USB-C remains at 15 watts and USB-A drops to 5 watts.
Cord head contains a circuit breaker when unit contains more than 3 simplex receptacles.

Headway™ Tech Bucket

DP5B.

Product Information

Description

This tech bucket is grommet mounted in Headway™ cabinet-base and Y-base tables to conceal cords off the table surface. It can be customized with faceplates to accommodate hard-wired power and data needs. It has 4 pass-through openings for data cords to be routed into the bucket. Lid opens toward either side of the table and pivots 95° from closed to open allowing easy access to the bucket. Bucket is black. Lid comes in a choice of finishes.

Notes

Tech bucket has knockouts at both ends to allow for data faceplates. See [planning guide](#) for specific knockout dimensions.

For Chicago power, specify the tech bucket and hardwire in a junction box. A licensed electrician must wire junction box to the building's electrical supply.

Logic G1000 Grommet Mounted Electrical Distributor Y1425.

Product Information

Description
 This Logic Power Access Solutions™ grommet mounted electrical distributor comes in several widths and configurations of simplex receptacles and USB-A and USB-C charging ports. The unit is powered using a standard power cord with plug end, or an IEC connector when used with Renew™ Sit-to-Stand tables. An integrated cord keeper at the face of the unit captures data cords. The unit pivots from a closed position to 135° allowing easy access to power and data cords stored beneath the unit. Product is UL listed.

Notes
 Field cutting of grommet cutout is possible.
 IEC connector for Renew power type (C) includes short cord designed to connect to the Renew table power cord through-leg option. Actual cord length may vary.
 Simplex receptacles have alternating orientation and greater than normal plug spacing to accommodate most plug types.
 USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C provides 15 watts of power and USB-A provides 10 watts of power individually. When using the USB-C and USB-A ports simultaneously, USB-C remains at 15 watts and USB-A reduces to 5 watts. Refer to Renew Sit-to-Stand Tables planning guide for specific application information.
 20' cord/conduit length (20) is recommended for Exclave® applications.
