5 Years

Bevel Classic distills the idea of lounge seating into its essential form. Well-proportioned and fully upholstered, Bevel combines the support of an angular backrest with ample cushions to create a firm yet pliable seat, equally comfortable when lounging or sitting upright. As club chair, settee, sofa, or built into a landscape of seating that includes a chaise or corner unit and ottoman, Bevel Classic has a clean, tailored look and compact, human-scaled dimensions that allow it to cross over between residential and commercial interiors with ease.
