

# Aeron<sup>®</sup> ESD Chair and Stool

Ergonomic to the core and based on extensive research conducted by designers Bill Stumpf and Don Chadwick, Aeron was designed to support a wide range of body types. It was pioneering in the office furniture industry when it launched in 1994—and it still is, thanks to material innovation, including the addition of 8Z Pellicle<sup>®</sup>, PostureFit SL<sup>®</sup>, and ocean-bound plastic to the chair. The Aeron ESD Chair brings the Aeron's legendary support and comfort into ESD-sensitive environments.

**Designers:** Bill Stumpf and Don Chadwick

## Key features

- 1. 8Z Pellicle**  
ESD-enhanced 8Z Pellicle offers unprecedented comfort through eight varied zones of tension in the seat and back.
- 2. PostureFit SL**  
PostureFit SL supports the sacral region and the natural S-shape of the spine, encouraging a healthful posture; a secondary pad adds lumbar support.
- 3. Harmonic™ 2 Tilt**  
The tilt moves with you naturally, allowing you to shift from forward to reclining postures intuitively and smoothly, and always at an optimal balance point.
- 4. Two sizes**  
Aeron comes in two sizes to ensure a more inclusive fit.
- 5. Caster**  
Soft tread ESD caster with identification.
- 6. Arm Pad**  
Soft-touch, static-dissipating upholstered arm pad.

## Details

**Family**  
Work Chair  
Stool
