

HermanMiller Healthcare

Cente™ Patient Chair

Centé™ Patient Chair

Lightweight, mobile, and exceptionally comfortable, Centé meets the needs of both patients and caregivers. Its durable, permeable suspension materials provide comfort by helping air circulate around the patient. A unique shift control mechanism helps position the chair at different heights and angles, to increase seated comfort and convenient approach to the chair. The matching footstool nests fully under the flex model and partially under the tilt model when not in use.

*Designed by David Ritch and Mark Saffell

HermanMiller Healthcare

Details

Powder-coated steel frame combines strength and durability

Components are removable to allow for routine cleaning and maintenance

Permeable tensioned materials promote circulation and disperse pressure

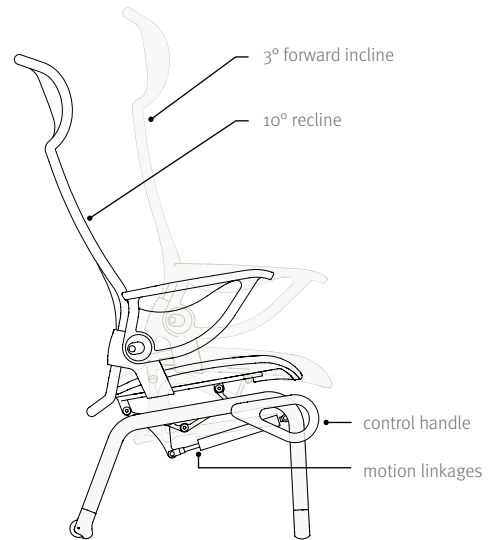

A soft and accessible handle provides convenient control to user or caregiver

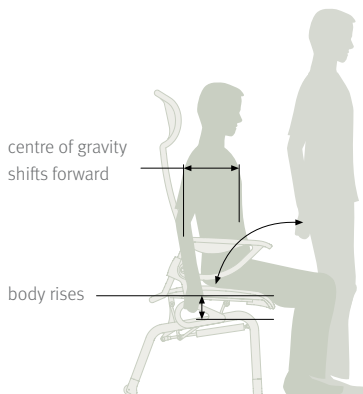

Resilient urethane springs provide a soft flex motion for additional comfort

Optional rear casters enable easy mobility of chair from room to room

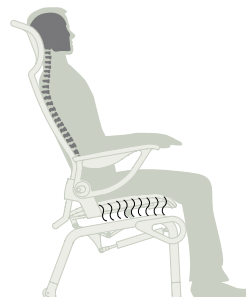

Details

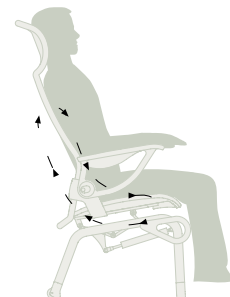

Assistance with Movement

An elevated forward incline decreases the distance from standing to sitting. When exiting the chair, the same elevated incline shift-control mechanism lifts and positions the seat forward to decrease the reclined seat angle to ease standing.

Ergonomic comfort

Seat and back suspension surfaces and 10-degree recline provide a comfortable seated posture.

Air Circulation

Permeable seating materials permit air to circulate around the patient, providing additional comfort.

HermanMiller Healthcare

Centé seat and back material options are designed to meet the performance and durability needs of the care giving process. Centé comes standard with a resilient polyester mesh seat in warm grey and a soft polyester knit back available in six color choices. Seats and backs can also be specified in a wide range of vinyl and polyurethane textiles.

Knit Back Colour Options

PK01 Cave

PK02 Slate

PK03 Khaki

PK04 Grain

PK05 Sage

PK06 Pacific

Features

- Powder-coated metal frame
- Wipe-out design
- Replaceable components
- Grey urethane arm caps
- Upholstered seat and back
- Seat and back suspension with soft permeable mesh fabric
- Elevated forward incline and shift control mechanism
- GREENGUARD Gold Certified
- 12-year Warranty

Options

- Moisture barrier
- Tilt and roll casters
- Coordinating footstool
- Multiple fabric application
