Monarch Plus Seating

HermanMiller Healthcare

A solid wood frame and an open, contemporary design give Monarch Plus its welcoming style. Extended seating areas provide comfort and support for a variety of body types, and unique sculpted arms make getting in and out of the chair easier.

Details

Durability and Hospitality

The solid maple frame of Monarch Plus chair combines durability with a sense of hospitality. Monarch is available with a standard wood arm with urethane arm cap for comfort or optional wood arm cap.

Easy Cleaning

Open arms and a wipe-out design allows for easy cleaning.

Patient-Centered Design

Monarch Plus chair has been engineered to support a high weight capacity (rated to 454 kilograms) and available in a variety of seat widths to accommodate a variety of body types. The geometry and position of armrest allows easy movement in and out of Monarch.

A Family of Choices

Available as a family of products including multiple, stack, patient, and lounge seating as well as tables to provide design continuity.
