Designer

Naoto Fukasawa and Keiji Takeuchi
for Geiger

Original Production Date

2018

Warranty

12 years

The communications technology that powers today's meeting spaces has vastly improved over the years. With Axon Tables, designers Naoto Fukasawa and Keiji Takeuchi brought this high-tech evolution to the conference table itself with embedded technology that makes data, voice, and videoconferencing connections easy to access through the center of the table and distributes power to convenient locations along the table's edge.
