

# Boa Table

Inspired by Japanese bamboo craftsmanship and cleverly rendered with eco-friendly materials, the Boa Table is a thoroughly modern conference table designed for versatility. Originally designed by Stefan Diez for HAY, the Boa Table has a flexible, trestle-style frame (formed from Hydro CIRCAL) that ships flat-packed and assembles with minimal tools. It's available in five shapes, three heights, and a curated Herman Miller palette, and it has power-ready options and integrated cable management. Whether in huddle zones, conference rooms, or ancillary spaces, Boa supports team collaboration and productivity while helping maintain a consistent aesthetic across all spaces.

# Boa Table

## Key features

- 1. Optional table-top power access**  
With its power-ready options, integrated cable management, lightweight construction, and a variety of configurations that foster collaboration, Boa meets a myriad of needs in today's hybrid workplace.
- 2. Intuitive cable management**  
Hollow trestle base and legs provide access to cables.
- 3. End-cap tubes**  
End-cap tubes hide internal components, for a clean aesthetic.
- 4. Glides for easy movement**  
Glides make it easy to shift the table across the floorplate.

## Benefits

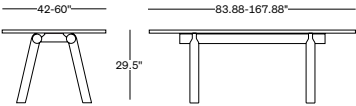

- With a base that's manufactured in Denmark using Hydro CIRCAL (aluminum made with at least 75% post-consumer recycled content), Boa significantly reduces environmental impact.
- Whether in huddle zones, conference rooms, or ancillary spaces, Boa supports team collaboration and productivity while helping maintain a consistent aesthetic across all spaces.
- With its approachable form and choice of heights and shapes, you can create cohesive, branded environments—from workplace cafés to agile team areas—that flex with changing team needs.
