Key Features

- 1. Customizable Components**
The dock infrastructure accepts components anywhere, allowing surfaces, storage, and screens to easily change.
- 2. Joint Collaboration**
The Team Bridge spans low storage and increases collaboration between all four users without increasing real estate.
- 3. Supporting Storage**
Lower storage can attach to the dock, providing alternative structural support.
- 4. Boundary Storage**
Upper storage acts as a boundary, provides visual privacy, and can be either one- or two-sided.
- 5. Panel Divides**
Gallery panels delineate space and provide visual boundary with a light aesthetic.
- 6. Power Placement**
Power access can be located at the top of the dock, below the work surface, or anywhere along the bottom of the dock.
