Connect™ Power and Data

These electrical distributors bring power and data to the work surface so it's easy to access outlets. Some models mount flush into a surface and feature a one-touch pop-up lid. Others clamp to the surface. All meet the same goal: to make it easy to connect and disconnect power and data in the work area.

Benefits
- Desktop solutions available in flush- and clamp-mount options
- Can be configured with various combinations of simplex receptacles and data ports
- Available with electrical cord and electrical conduit for hardwire connection

Warranty
5 years

Key Features

Connect Power and Data

1. **Configurations**
   Connect can be configured with various combinations of simplex receptacles and data ports.

2. **Conduits**
   The unit is available with electrical cord or electrical conduit for hardwire connection.

3. **Adapter Kit**
   Connect includes voice/data adapter kit so it works with most manufacturers' couplers and jacks.

Connect Circuit Modular

1. **Two Circuit**
   Two circuit accommodates up to 26 duplex receptacles and four wires. Circuits are rated 20 amps each.

2. **Four Circuit**
   Four circuit accommodates up to 52 duplex receptacles and eight wires. Circuits are rated 20 amps each.
