

Eames® Tandem Sling Seating

Originally designed in 1962, Eames Tandem Sling Seating has stood the test of time and provided a comfortable place for millions waiting in airports and other public spaces throughout the years. The product first appeared in Chicago O'Hare Airport and Washington D.C. Dulles Airport, and its iconic form can now be found around the world.

With so many configuration options, the seating easily meets facility needs, and its sleek look complements spaces without overwhelming them. Integrated power allows people to relax and plug in when they need to most.

Designers

Charles and Ray Eames

Benefits

- Charging modules (USB or simplex) distributed evenly among seats and tables
- Durable, interchangeable seats and pads without stitch lines that are easy to care for
- Accommodates various configurations from two to seven chairs; also available with ADA compliant seat options

Key Features

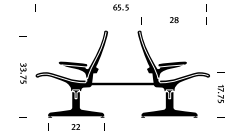

- 1. Easy Care Back and Seat Pads**
With no stitch lines to gather dust, the seats always look fresh and clean and require minimal maintenance.
- 2. Table and Power**
Tables, available in 7" width (shown) or 17" width, hold personal items and create a buffer for personal space.
- 3. Power Kit**
Power modules can be added to new or existing Tandem Sling Seating. These come with dual USB-A and -C and simplex outlet.
- 4. Interchangeable Seat and Back Pads**
Interchangeable pads can be replaced on site, for long-lasting durability.
