Atlas Storage

With a simple set of elements, including single and double units in various heights, Atlas Storage not only enhances various settings by housing work items or personal belongings, it can also create space and define boundaries. The addition of the seat pad provides the perfect place for guests to perch, and the soft, curved aesthetic seamlessly complements both the Atlas and Memo desking portfolios, creating a consistent look across the office landscape.

For added flexibility, choose either castor or glides, and on a unit with four castors, two will include wheel brakes.
