

Eames Turned Stool

Designed for lobbies of the Time-Life Building in 1960, this stool functions as a place to sit or a small table. First introduced in walnut as Eames Walnut Stool, it's now available in a new shape and in ebonised ash. The new name reflects the process still used to manufacture the stool.

Designers

Charles and Ray Eames

Originally Introduced

1960

Benefits

- Versatile piece that can be used as a stool, table or objet d'art.
- Fits a wide range of styles, thanks to new finish and new shape.

Warranty

5 years

Key Features

1. Offered for the first time in new Eames shape
2. Newly available in ebonised ash, as well as traditional walnut
3. Made using unique wood-turning process that involves three separate pieces, which are turned on an axis and carved into different forms, then stacked together to blend in seamlessly
