

# Wilkes Modular Sofa Group

Designed by Ray Wilkes and first introduced in 1976, Wilkes Modular Sofa Group has made a lasting impression with its distinctive silhouette. We've updated the essential postmodern design with power and material options. Everything else we've kept the same, from its injection-moulded foam cushion construction to its integrated table option.

**Designers**

Ray Wilkes

**Original Release**

1976

**Benefits**

- Provides a surprising level of individual comfort, thanks to rounded-edge cushions and steel brackets with enough give that each back section can flex independently
- Comes in a range of configurations, from a single chair to a six-seat sofa
- Available with power for additional functionality and many upholstery options, making it adaptable to a wide variety of architectural styles

**Warranty**

5 years

# Wilkes Modular Sofa Group

## Key Features

1.

**Optional Tables**  
Tables, which can be specified wherever there's a seating unit, hold personal items and create a buffer for personal space.
2.

**Power Kit**  
Power modules with USB ports can be added to all sofa group options to make charging technology easy.
3.

**Injection-Moulded Foam Cushions**  
The rounded-edge cushions never “puddle” or lose their shape.
4.

**Angled Seat**  
The geometry of the 105-degree angle of the seat and back provides a perfect pocket for comfortable sitting.
5.

**Multiple Material Options**  
It's still available in bright solids, like the original, but also can be upholstered with Maharam textiles.
