

ABOUT A CHAIR / AAC11

DESIGN BY HEE WELLING & HAY

Featuring a swivel base in steel, the About A Chair AAC11 conveys a more formal expression than its wooden-legged counterparts from the series. Retaining the same open, curved shell, it balances on delicate and elegant legs that fan out from the centred base, as if the tiptoe silhouette elevates the chair from the floor. The cast aluminium swivel base is available in polished or powder coated finishes, and the polypropylene shell comes in diverse color and upholstery options, allowing a multitude of design combinations that make this series so versatile.

PRODUCT DETAILS
