

# ABOUT A CHAIR / AAC17

DESIGN BY HEE WELLING & HAY

With its clean, curved lines and slim, symmetrical legs, About A Chair AAC17 retains the same minimalistic qualities as the rest of the family. Designed with functionality and versatility in mind, the four legs are positioned under the seat at a rounded angle to frame the upright, organic shell for optimal comfort and stackability. The legs are available in chrome and powder coated finishes, while the shell comes in diverse color and upholstery options, allowing a multitude of design combinations that make this series so flexible.
