

KOFI

PRODUCT FACT SHEET

KOFI

DESIGN BY MARTIN SOLEM, 2021

Created by Norwegian designer Martin Solem for HAY, Kofi is a range of elegant and versatile glass-topped coffee tables. Based on the desire to make a clean and functional table with an eco-friendly profile, the Kofi series is developed using clever and efficient production methods with a flat-pack design. The clean simplicity of the dimensions and proportions is highlighted by the close attention to detail, resulting in uncluttered aesthetics with distinct lines and a timeless quality. Featuring a solid oak or walnut frame in FSC-certified wood with a water-based lacquer, the top is made of plain or reeded glass, which has a distinctively ribbed structure. The table comes in different sizes with different color frame options and glass in clear or colored variants. The numerous design combinations makes Kofi suitable for a wide variety of home or corporate settings, from living rooms and halls to receptions and meeting rooms.

HIGHLIGHTS

- Kofi is a series of glass-topped coffee tables featuring different colors, finishes and sizes.
- Kofi has a simple construction consisting of a flat-pack wooden frame and glass top.
- The table top is available in clear, colored or reeded glass.
- The table frame is made of FSC™-certified wood with water-based lacquer and is available in different colors and finishes.
- Available in a variety of color combinations.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

MATERIALS

TABLETOP

Tempered glass tabletop in clear glass, tinted glass or clear reeded glass.

FRAME

H4,5 cm | solid frame in oak or walnut with inserted reinforcement brackets.

LEGS

Ø4 x H30,5 cm | solid walnut or oak legs incl. felt pads.

CONSTRUCTION

Solid wood legs are screwed into the pre-assembled solid wood frame, using the threaded inserts in each corner. Bumpers are placed on top of the frame before carefully placing the glass top on the frame. Leveling washers are included in the fitting bag, in case of uneven flooring.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimize our environmental impact. We optimize the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.

CERTIFICATES

FSC™ LABEL 100%
Made from FSC™-certified wood.

TESTS

EN 15372: 2016

Furniture–Strength, durability and safety–
Requirements for non-domestic tables.

L3: Severe use.
