REY COLLECTION

DESIGN BY BRUNO REY FOR DIETIKER, IN COLLABORATION WITH HAY, 2022

Based on the original Rey Collection designed by Swiss designer Bruno Rey in 1971, HAY has teamed up with Dietiker to present the Rey Chair, Stool and Bar Stool, and the Bruno Rey Table and Coffee Table in a new updated form. Developed around the acclaimed stackable chair design – known for its screwless production process – the whole collection is unified by a solid composition and rounded edges. The collection retains the functionality and resilience of the classic designs and has been modified in new dimensions to accommodate contemporary lifestyle requirements and is available both in original colors, as well as new tones and upholstery options selected by HAY. Its uncluttered yet distinct design language makes it suitable for using in a wide variety of domestic, public or corporate settings, from living rooms and halls, to cafés and receptions.

HIGHLIGHTS

- A family of chairs, stools, bar stools, tables and coffee tables available in different colors and finishes.
- Known for its screwless production process, the collection is unified by a solid composition and rounded edges.
- Available in both original colors, as well as new tones selected by HAY.
- The chairs have been modified in new dimensions to accommodate contemporary lifestyle requirements.
- The Chair and Bar Stool are available with selected seat upholstery options.
- The Chair and Stool are stackable up to 4 pcs.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.
