SOFT EDGE 82 BAR STOOL

DESIGN BY ISKOS-BERLIN, 2016

Iskos-Berlin's Soft Edge series features an organically shaped design, blending strong curves with extreme lightness to create a three-dimensionality that is not normally possible with 2D plywood. The result is a minimalistic design that optimizes human-centric comfort for constant shifting and movement. Featuring a wooden seat and legs in a range of different finishes, the Soft Edge 82 bar stool creates a seamless, unified expression that offers uncluttered aesthetics, stability and functionality. Its strength and functionality ensure years of everyday use in a wide range of public and private environments – from corporate spaces and cafés to home environments.

HIGHLIGHTS

- Part of a family of dining chairs, bar stools, stools and lounge chairs with steel base or solid oak legs or polypropylene seat and back with steel base.
- 3-dimensional form based on the latest developments in molded plywood technique using ordinary plywood.
- Variety of seat and base colors and finishes.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.
