

Flex Edge™ Input Platform

The front edge of this platform has a soft, flexible surface where you can rest your arms while using a keyboard or mouse. Designed to fit a corner layout, the platform adjusts to any height from eight inches below to seven inches above the work surface. Tilt it into the position that works best for you, over a range of plus or minus 15 degrees. Flexible edges along each side prevent pinching when adjusting the height. Meets or exceeds ANSI/BIFMA requirements.

Benefits

- Soft, flexible platform comfortably supports arms when using a keyboard or mouse
- Designed to fit a corner layout to maximize space on work surface
- Variety of tray finishes to match décor

Warranty

12-year, 3-shift

Flex Edge™ Input Platform

Key Features

- Adjustable Platform**
The platform attaches to a corner work surface and offers two height ranges: 15-inch height range (7 inches above and 8 inches below rear work surface) and 18-inch height range (12.5 inches above and 6 inches below rear work surface).
- Flexible Waterfall Front Edge**
The flexible waterfall front edge supports your arms during input and writing tasks, and flexible edges at each side provide protection from pinching between the platform and the adjacent work surface when adjusting the height.
- Curved Edge**
The curbed edge keeps items from rolling off the back and side edges.
- Platform Tilt**
The platform tilts 15 degrees forward and 15 degrees backward.
