

Logic Mini™ Vine

Logic Mini Vine links two, three, or four electrical distributors to serve multiple people across a public space. Like the rest of the Logic Power Access family, it offers a clean appearance and a consistent user experience throughout the workplace.

Designer

Brian Alexander

Benefits

- Can be configured as one simplex receptacle and two USB ports, all simplex receptacles, or one simplex receptacle with two USB ports in the first module and all simplex receptacles in the rest
- Outlets alternate in orientation to accommodate a variety of plug styles and charger types without blocking use of any of them
- Grommet mount and surface clamp options allow people to position the distributor wherever needed

Warranty

5-year
