

LS Series Keyboard Support

With the LS Series Keyboard Support, you can enjoy the comfort of working with your keyboard at the proper height and angle for your body. The slim, adjustable support attaches to the work surface, letting you raise, lower, and tilt your keyboard into a position that feels right for you. It works with a variety of trays to support your technology and daily activities, and it stores neatly beneath the work surface in just two inches of space. The LS meets or exceeds ANSI/BIFMA requirements.

Benefits

- Innovative, slim keyboard mechanism and platforms that accommodate virtually any application
- Stores neatly beneath the work surface, taking up just two inches of space
- Multiple track lengths and keyboard platform options for maximum application customization

Warranty

12-year, 3-shift
