

LT Series Keyboard Support

Take advantage of horizontal, height, and tilt adjustments to keep your keyboard comfortably aligned with your body while you work. The LT Series Keyboard Support offers visual indicators to help you set the ideal position for any posture, technology, or person, including for people who are right- or left-handed. Combine it with a variety of different keyboard trays to support the way you work, and simply fold it back beneath the work surface and out of your way when not in use. The LT meets or exceeds ANSI/BIFMA requirements.

Benefits

- Information on keyboard height and angle provided by visual indicators
- Cost-effective keyboard solution with multiple track and keyboard platform options
- Variety of platform and mouse tray options to accommodate various technology

Warranty

12-year, 3-shift
