Ronan and Erwan Bouroullec for Magis

Original Production Date

2009

Design for the Environment

4% recycled content; 59% recyclable

Warranty

2 years

By combining the warmth of wood and the strength of steel, this modular shelving system by Ronan and Erwan Bouroullec is created to look beautiful—and age gracefully. Handsome, friendly, and durable, its versatile design organizes and stores items just as confidently in casual settings as it does in elegant ones.
