Work has evolved, and we’ve become more active—shifting from individual to collaborative work in an instant. We need tools designed to be as agile as we are. That’s why Mirra 2 was designed to support people who work in a constant state of motion. The chair moves with you, at one with your body. When you sit, the seat and back adapt to you, and the chair’s dynamic surfaces respond to your slightest movements. With simple, intuitive adjustments to fine-tune the fit, Mirra 2 balances comfort and personalized ergonomics in one sophisticated design.

**Designer**
Studio 7.5

**Benefits**
- Lightweight design, ideal for settings where agility is key
- Ultra-responsive materials that respond to body’s slightest movements
- Works for a variety of people and applications

**Warranty**
12-year, 3-shift

Mirra 2® Chairs

Key Features

1. **Harmonic™ 2 Tilt**
The tilt enables natural, balanced movement through a range of postures.

2. **Butterfly Back™**
The Butterfly back combines the comfort of upholstery with the strength of polymer to provide pressure distribution from sacrum to the upper thoracic regions of the spine.

3. **TriFlex Back™**
The size, shape, and pattern of the holes in the TriFlex back create zones of support that allow healthy seated movement. The TriFlex back also meets rigorous cleaning protocols.

4. **PostureFit®**
PostureFit supports your spine at its lowest point, the sacrum, and reinforces your pelvis, preventing slouching and fatigue while you sit.

5. **Optional Height-Adjustable Lumbar Support**
The height-adjustable lumbar support provides an added level of spinal support and comfort for the lumbar region.

6. **AireWeave™ Seat Suspension**
The seat suspension conforms to your shape, distributes your weight evenly, and keeps heat from building up as you sit.
