

# HermanMiller Nelson™ Swag Leg Desk

**Designer**  
George Nelson

**Original Production Date**  
1954

**Warranty**  
5 years

Swaging—the use of pressure to taper and bend metal tubes—is the integral technique behind the distinctive profile of this classic design by George Nelson. With a modest scale seemingly made for a modern world of laptops and smartphones, it offers a compact work surface, colorful cubbies, and molded drawers to manage clutter.
