## Nelson™ Swag Leg Dining Table Round

**Designer**

George Nelson

**Original Production Date**

1954

**Warranty**

5 years

The legs of George Nelson's round dining table use "swaging"—the applying of pressure to taper and bend metal tubes—to form its distinctive chrome base. A round surface in walnut veneer or white laminate tops the graceful base, offering a classic look that enhances both casual settings and elegant environments with function and enduring beauty.
