

# Nemschoff® Nala® Patient Chair and Ottoman

The Nala Patient Chair brings the same innovations found in Herman Miller's high-performance work chairs to healthcare settings. The chair's tilt, support, and contours all follow the movement of the human body, creating an ergonomic chair that's truly designed around the patient. Though advanced ergonomics are the hallmark of Nala, the chair also delivers the comfort, durability, and ease of cleaning needed in patient and exam rooms. A coordinating ottoman is also available.

## Designers

Gianfranco Zaccai

## Benefits

- Mimics the natural movement of the patient's body, automatically moving as the patient does
- Back and seat move in sync, opening up as the patient reclines and tilting around the body's natural pivot points
- Suspension system consists of firm, flexible straps encased in high-density foam for both support and comfort

## Warranty

12 year

## Key Features

### 1. Ottoman and Headrest

A coordinating ottoman and optional headrest pillow provide enhanced patient comfort

### 2. Dual-Arm Recline Activation

Patients can engage the recline with controls beneath each arm

### 3. Seat and Back Suspension

Suspension system consists of straps encased in high-density foam, combining responsive support and utmost comfort

### 4. Harmonic™ Tilt

An ergonomic feature developed for high-performance work chairs, Harmonic Tilt lets Nala move along with the patient

### 5. Multiple Upholstery Configurations

Get the perfect look by specifying different combinations of textiles for the seat, back, headrest, and rear side of the chair

### 6. Caster Options

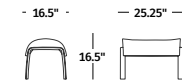

Make it mobile by choosing casters for all four legs or special tilt-and-roll casters for the rear legs

## Statement of Line
