

Ondo™ Connectivity Module

Designed for easy attachment to the base of Flo, Ollin, or Lima monitor arms, Ondo helps create a clean, minimalist desktop aesthetic by corralling cords and cables and routing them to an under-desk docking station (not included). Ondo draws on power from the docking station to provide a convenient way to charge and connect your devices at the desktop.

Benefits

- Minimizes cable clutter through integrated cable management system, especially when paired with CBS Loop Micro Mount
- Allows for pass-through access to power and data at desktop by routing cords and cables to under-desk docking station
- Attaches to the base of Ollin, Flo, and Ollin monitor arms without tools

Warranty

5-year

Key Features

- 1. Monitor-Arm Ready**
Ondo works with Flo, Ollin, or Lima monitor arms, adding power and cable management to your ergonomic setup.
- 2. Tool-Free Installation**
Once you've put the monitor arm through the hole in Ondo and secured it, you only need to plug in a few cables to be up and running.
- 3. Four Ports**
Ondo routes the power and data from your under-desk docking station to two USB-A and two USB-C ports on the desktop for convenient access.
- 4. Pairs with Loop Micro Mount**
To neatly manage all power, data, monitor, laptop, and keyboard connections, pair Ondo with Loop Micro Mount.
- 5. Heavy-Duty Cabling**
Nylon braided cables that are tangle-resistant and durable are included.
- 6. Three Finishes**
Ondo is available in silver, white, or black.
