## Tuxedo Component Lounge™ Museum Bench

### Designer

BassamFellows for Geiger

### Original Production Date

2011

### Warranty

12 years

This long, lean bench—a precisely proportioned design by BassamFellows—provides ample seating without overwhelming the gallery or lounge space in which it is placed. Elegant and carefully considered, it conveys the appearance of lightness, particularly through its cantilevered seat atop slim steel legs. It pairs well with other Tuxedo furnishings, thanks to the line's modular grid design.

Quilted

Non-Quilted
