

Aeron® Chair — Size/Fit Reference

This reference chart helps people select A, B, or C size chairs when the three sizes are not available for actual test sitting. Height and weight are key indicators of suitable chair-size choice. This chart applies to Aeron chairs with the extended-height-range pneumatic height-adjustment cylinder.

To determine which chair size is best, find the point of intersection for your height and weight. Aeron B, and C size chairs are tested and warranted for use by persons 350 pounds and under. A size chairs are tested and warranted for use by persons 300 pounds and under.
