Everywhere Tables™ Post Leg Installation (P) and Disassembly for Recycling Instructions

Parts Included:

A Work Surface Options

B Post Leg Option
(2 Sets)

Tools Required:

Power Driver

#2 Phillips Bit

Safety Glasses

HermanMiller

Part no. 1b6k0d rev H

© 2023 Herman Miller, Inc. Zeeland, Michigan. Printed in the U.S.A.
™ **HermanMiller**, Everywhere Tables are among the trademarks of Herman Miller, Inc.

Illustrations and specifications are based on the latest product information available at the time of publication.
The right is reserved to make changes in design and specifications at any time, without notice, and also to discontinue products.

Assembly Instructions:

1. Align Holes in Post Legs (B) with outermost holes in Work Surface (A).
2. Install 8 Pan Head Tapping Screws (C) per Leg (HPL + Veneer) or 7 pan head Screws per leg (C) (Painted MDF).
3. For use on 'painted MDF tops' use (D)+(E) in locations where an insert is present in the hole pattern.

Disassembly for Recycling:

Materials Identification and Segregation:

Where possible, plastic components are marked with ASTM recycling codes. Use these codes to identify material type for recycling. Non marked components should be treated as mixed plastic. Ferrous metals can be identified using a small magnet for recycling. Non-ferrous metals should be separated and recycled separately.

To disassemble product, reverse steps 3 through 1.

Everywhere Tables™ T & C Leg Installation (T & C options) and Disassembly for Recycling Instructions

Parts Included:

A Work Surface Options

B T Leg Option
(2 Sets)

C C Leg Option

Hardware Pack

Tools Required:

Power Driver

#2 Phillips Bit

Ratchet Wrench

3/8" Socket

Safety Glasses

HermanMiller

Part no. 1b6k0d rev H

Illustrations and specifications are based on the latest product information available at the time of publication.
The right is reserved to make changes in design and specifications at any time, without notice, and also to discontinue products.

Assembly Instructions:

1. Hold Leg segments (B or C) at 15 degree angle to one another.
2. Insert Hooks on base of leg segments into notches in adjoining leg segments.
3. Secure Leg segments together with Connection Bracket (D) and 2 Hex Flange Tapping Screws (E). (Per Leg) Do not overtighten.

“T” Leg

“C” Leg

4. Position Leg Assembly at each end on bottom side of Work Surface (A) so that Foot Assembly is centered on depth of Work Surface.
5. Install Pan head tapping screws (F) 16 per Leg Assembly. Exception on painted MDF tops, use machine screw (G) and star washer (H) in locations where insert is present in the hole pattern.

Illustrations and specifications are based on the latest product information available at the time of publication.
The right is reserved to make changes in design and specifications at any time, without notice, and also to discontinue products.

Assembly Instructions:

1. If legs have casters, use 1-locking caster and 1-non locking caster per leg assembly.
2. Hold Leg segments (B) at 15 degree angle to one another.
3. Insert Hooks on base of leg segments into notches in adjoining leg segments.
4. Secure Leg segments together with Connection Bracket (F) and 2 Hex Flange Tapping Screws (G). Do not over tighten.

Note: Locking Casters to be on Paddle side.

5. Remove pre-assembled T-50 Torx head screws from top of the Legs (hold for Assembly).
6. Insert Leg Assemblies (B) into Cross Member Assembly (C).
7. Secure Legs to Cross Member with T-50 torx head screws.
