How to assemble your bench.

Tools required

#2 Phillips Screwdriver

Step 1

1.1 Lay bench assembly (A) top side down on a clean surface.

1.2 Pivot leg assemblies up.

Step 2

2.1 Align holes in V brackets with metal insert in bench slats.

Warning:

Failure to fully tighten screws may cause injury by causing bench to collapse. Tighten screws until they stop plus a quarter turn.
Step 3

3.1 Insert machine screws (B) into each leg assembly. Tighten screws.

Step 4

4.1 Place table in upright position.
