Canvas Channel Finished End Installation and Disassembly for Recycling Instructions

How to assemble your Finished End

Tools Required

Safety Glass

IMPORTANT: Save these instructions for layout changes.

Finished End

Step 1

- 1.1 Install tiles on frames.
- 1.2 Top hook, bottom hook and light seal come assembled to finished end.
- 1.3 Attach finished end assembly to frame by aligning hooks to slots in frame. Align bottom hook first, then top. Hold light seal against the hooks so it is sandwiched between the frame and the finished end hooks.

Finished End

Light Seal - Finished End

Finished End Top Cap

Finished End Hook

- 1.4 Insert finished end top cap into upper top cap.

1.5 Attach top cap assembly to frame.

Disassembly for Recycling:

Materials Identification and Segregation:

Where possible, plastic components are marked with ASTM recycling codes. Use these codes to identify material type for recycling. Non marked components should be treated as mixed plastic. Ferrous metals can be identified using a small magnet for recycling. Non-ferrous metals should be separated and recycled separately.

To disassemble product, reverse the above installation steps.
