IMPORTANT: Save these instructions for layout changes.

Assembly Instructions:

Note: Painted version of Products shown throughout instructions.

Step 1

- 1.1 Slide top cap brackets into top caps.
- 1.2 Use top cap brackets to span joint where two top caps meet.

- 1.3 Position top cap brackets as shown when 1 top cap is used to span 2 wall frames.

1.4 Install tiles and vertical connector covers. (Shown without tiles for clarity)

1.5 Slide top caps onto top cover.

1.6 Snap top caps and covers onto tile top rail.

1.7 Legs of top cap brackets must be centered on wire channels in order to work properly.

Spacer Cover

4-Way Cover

Disassembly for Recycling:

Materials Identification and Segregation:

Where possible, plastic components are marked with ASTM recycling codes. Use these codes to identify material type for recycling. Non marked components should be treated as mixed plastic. Ferrous metals can be identified using a small magnet for recycling. Non-ferrous metals should be separated and recycled separately.

To disassemble product, reverse steps 7 through 1.
