Connector Cover

Two-Sided
Connector Cover

Two-Sided Connector Cover

Step 1

- 1.1 Place notches in connector cover over connector blocks.
- 1.2 Push down on cover to engage tabs onto posts on connector blocks.

Disassembly for Recycling:

Materials Identification and Segregation:

Where possible, plastic components are marked with ASTM recycling codes. Use these codes to identify material type for recycling. Non marked components should be treated as mixed plastic. Ferrous metals can be identified using a small magnet for recycling. Non-ferrous metals should be separated and recycled separately.

To disassemble product, reverse the above installation steps.
