## Tools Required:

# Materials Identification and Segregation:

Where possible, plastic components are marked with ASTM recycling codes. Use these codes to identify material type for recycling. Non marked components should be treated as mixed plastic. Ferrous metals can be identified using a small magnet for recycling. Non-ferrous metals should be separated and recycled separately.

# Work Chair Disassembly

Steps:

1. Hold base and pull hard to remove caster from base.

2. Remove all casters.
